in https://www.linkedin.com/in/jebinamaharjan/

## Summary

Quality Assurance Engineer with over 1 year of experience in developing and executing structured test plans, performing manual testing, and ensuring software reliability through regression, performance, and API testing. Adept at collaborating within Agile/Scrum teams, identifying and tracking defects, and driving improvements in QA processes and documentation. Recognized for a detail-oriented and analytical approach, with a strong commitment to enhancing software quality, optimizing testing efficiency, and contributing to seamless product delivery that elevates the end-user experience.

## Work Experience

### Digi Hub Pvt. Ltd.

Quality Assurance Engineer

*June 2022 - November 2023*

Quality Assurance Engineer experienced in designing and executing test cases, managing defects via ClickUp, performing load/stress/sanity and regression testing, conducting API testing with Postman, supporting Agile/Scrum processes, improving QA practices, and collaborating with cross-functional teams to ensure high-quality software delivery.

### Lapsii Online Group Pvt. Ltd.

Quality Assurance Intern

*November 2021 - February 2022*

Quality Assurance Engineering Intern skilled in creating and executing detailed test plans and defect reports, implementing quality practices, applying theoretical knowledge in real projects, and contributing effectively within Agile development environments.

## Education

**Lower Secondary School Diploma**                                                                 2016

Saraswati Boarding Higher Secondary School

Kathmandu, Nepal

**Higher Secondary School Diploma**                                                          2016-2018

NCCS Higher Secondary School

Kathmandu, Nepal

**BSc (Hons), Computing**                                                                          2018-2022

Islington College Affiliated To London Metropolitan University

Kathmandu, Nepal

## Professional Skills & Contributions

**QUALITY ASSURANCE ENGINEER**

**Digi Hub Pvt. Ltd.**

- Designed and executed comprehensive test cases to validate software functionality and performance.
- Identified, documented, and tracked defects using ClickUp to support efficient bug resolution and workflow transparency.
- Performed load, stress, and sanity testing to ensure system reliability, stability, and usability.

- Conducted API testing using Postman to verify endpoint functionality and integration accuracy.
- Actively participated in Agile/Scrum ceremonies, including sprint planning and daily stand-ups, to support collaborative and efficient project delivery.
- Executed regression testing throughout development cycles to identify and prevent re-occurrence of issues.
- Contributed to QA process improvements by recommending and implementing best practices to enhance efficiency and quality.
- Collaborated with developers and product managers to integrate testing into the development life-cycle and ensure timely, high-quality releases.

**QUALITY ASSURANCE INTERN**

**Lapsii Online Group Pvt. Ltd.**

- Devised and implemented quality assurance practices to support consistent and structured product development.
- Prepared, documented, and executed detailed test plans, test cases, and defect reports to ensure accuracy and traceability.
- Applied theoretical QA knowledge in practical project environments, gaining hands-on experience with real testing workflows.
- Worked within Agile development environments, contributing to team processes and supporting iterative development cycles.
